## Protection of Minors

With the Internet so readily accessible in homes around the world, responsible online gambling relies heavily on responsible parenting. In order to ensure child safety on the Net, Betway encourages its customers to make use of filtering software to prevent minors from accessing inappropriate online material. Underage gambling is not only illegal but can also result in gambling dependencies and huge gambling debts incurred by unsupervised children.

Betway aims to protect vulnerable people and minors. Any person under 18 years old will be prevented from registering on our gaming platform. Our technical implementations ensure that minors are not allowed to register on our website. However, in the case a minor was able to register on our website using fake data, the minor won't be allowed to participate in our gambling offer.

### Tips for Parents:

- Do not leave your computer unattended when your casino software is running.
- Password-protect your casino software.
- Do not allow persons under 18 to participate in any gambling activity.
- Keep your Casino account number and credit card(s) out of the reach of children.
- Do not save passwords on your computer. Write them down instead.
- Limit the amount of time your children spend online and make use of software to prevent your children from accessing inappropriate material.
- Please note, you can use parental control systems like [Cyber Sitter](#) or [Net Nanny](#) as a form of prevention to stop underage persons from accessing gambling websites. These are, however, paid platforms so there is a cost involved.
